

We're Here To See The Dentist!

The Dentist is a toothie doctor,
Who makes sure we brush our teeth as we ought to.

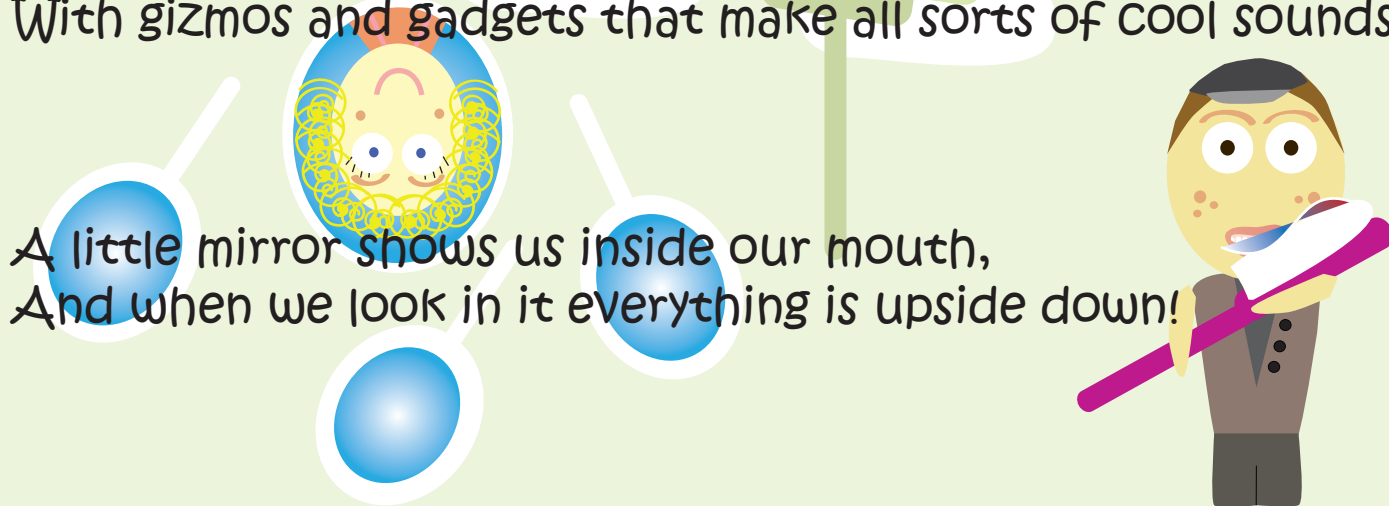

It's fun to pretend we're hungry snappy crocodiles,
As the dentist takes a look at our fabulous smile.

We can ride on a chair that takes us up into the clouds,
With gizmos and gadgets that make all sorts of cool sounds.

A little mirror shows us inside our mouth,
And when we look in it everything is upside down!

When we eat food our teeth cover in plaque,
So we must brush twice a day to stop it from coming back.

If we have too many sweets our poor teeth will ache,
So we save them for special treats and our teeth are okay.

And when we are done we get a very special sticker,
And suddenly our smiles grow even bigger!
